

Printable: Additional Resources

How do I find integrations within RPR?

- 1 Go to the subject's *Property Details* page at narrpr.com.
- 2 Scroll down to *Additional Resources* on the left side of the property details.
- 3 Click on the name of the integration to redirect to their site.

The screenshot shows the RPR interface for a property at 8100 E Michelle Dr, Scottsdale, AZ 85255. The page includes a navigation bar with 'Home', 'Research', 'Marketing', 'Reports', 'Learn', 'Help', and 'My Work'. Below the navigation bar, there are filters for 'Residential', 'Location', 'Type/Status', and 'Property Type'. The main content area displays property information, including a photo of the house, listing price (\$825,000), and RVM* value (\$778,190). On the left side, there is a sidebar with 'Additional Resources' and three integration options: 'Valuate', 'Transactions zipForm Edition', and 'ClimateCheck'. A green circle with the number 1 is placed over the 'Additional Resources' section, and a green circle with the number 2 is placed over the 'Valuate' integration link.

The close-up screenshot shows the 'Additional Resources' section in the RPR interface. It features three integration options, each with a right-pointing arrow: 'Valuate' (Analyze investment potential), 'Transactions zipForm Edition' (Manage forms & transactions), and 'ClimateCheck' (Climate change risk rating). A green circle with the number 3 is placed over the 'Transactions zipForm Edition' integration link.

What integrations will I find in the Additional Resources section?

 **Valuate:** Analyze a property to see if it would be a good investment as a flip or as a long term hold using a real estate investment tool provided by Valuate.

 **Transactions zipForm Edition:** REALTORS® who use zipForm® can go directly from RPR's Property Details page to zipForm®, and vice versa—all by way of one simple click. This integration allows select public records data fields from RPR to flow directly into the forms REALTORS® use in zipForm®.

 **ClimateCheck:** ClimateCheck is a climate risk data provider that combines real estate, science and technology experience. Its goal is to empower all commercial and residential stakeholders – buyers, owners, brokers, investors and lenders by exposing and quantifying the risks related to the climate crisis.
